

# GRP SECTIONAL COMBINED TANK & PUMP STATION.

**TRICEL**  
GENERATIONS OF INNOVATION

## Product Description

GRP Hot Press Sectional CTPS are a tidy, cost effective solution for water storage. Manufactured from GRP making it a durable lifelong station which includes a practical working space for water tank ancillaries including water pumps & electrical equipment, these stations are suitable for both internal and external applications.

## Benefits Include:

- Very compact
- Professional station
- High strength
- Corrosion resistant
- Low maintenance
- Speedy assembly on site Saving on cost and space, two products direct from one supplier
- Long life materials
- Tank ancillaries available
- Light weight, 1/10 weight of concrete & steel
- Suited to individual or repeat projects
- Ease of handling, installation and transportation
- Deliverable on pallets; negates the requirement for a HI-AB
- GRP material
